

Assessment Breakout Questions

KASA-specific questions

1. If the KASA standards are used exclusively, are there important knowledge and skills that have not been captured by the KASA?
 - a. How could we measure those areas?

2. What areas of the KASA are most difficult for your department / program to assess or document?
 - a. Why are these difficult?
 - b. How do you handle these areas?

3. Are there knowledge and skills that are not being captured in the KASA? If so, how might these be measured?

4. How is your department calibrating the tools used to document achievement of KASAs?

General assessment questions

5. What are the pros and cons of gathering evidence from the community about success of our programs? Any suggestions on how this might be accomplished?

6. What are the biggest challenges to student assessment in your departments / programs?
