

Objective

- What did you observe?
- What did the clinician do?
- What did the client do?
- Who else was there and what did they do?
- Give a brief description of what you saw in the video?
- What was the lesson plan?

Reflective

- How do you think the client felt?
- How did you feel watching?
- How do you think the clinician felt when....?

Interpretive

- How do you think the clinician did?
- What suggestions do you have for the clinician?
- What is the presenting clinician's purpose? What does this person want to get out of the feedback?
- Did the session match the lesson plan? If not, please explain.

Decisional

- What did you learn?
- How will you react if this happens again?
- How are you going to plan for when this might happen again? (Is it possible to predict?)
- What, if anything, would you do differently?
- Are there available resources that can be used?
- How might you apply this to your own client? (What kinds of clients would this be pertinent to?)
