

# ***How Generational Biases Hold us Back:***

*Increasing Cross  
Generational  
Communication*

# Who are We?

Amanda

How I looked  
the year I got  
email for the  
first time

Renee

I mean who  
wouldn't want  
This perm?

# Disclosures

## Amanda Stead

Financial - Receives salary from Pacific University

Non-financial- Millennial raised by a Boomer who was raised by members of the Greatest Generation.

## Renee Wendel

Financial - Receives salary from Texas State University

Non-financial- Generation X | raised by Boomers, who were raised by members of the Greatest Generation.

# Learning Objectives

1. Define generational differences & communication values
2. Identify the impacts of generational bias and poor cross-generational communication
3. Describe strategies to address communication differences

## Check-in #1

Based on the title, description, and objectives of this presentation, note 3 things you hope to learn from this presentation.

In the chat box

# ***Three primary factors that influence a generation***

Age

Societal norms

Technology

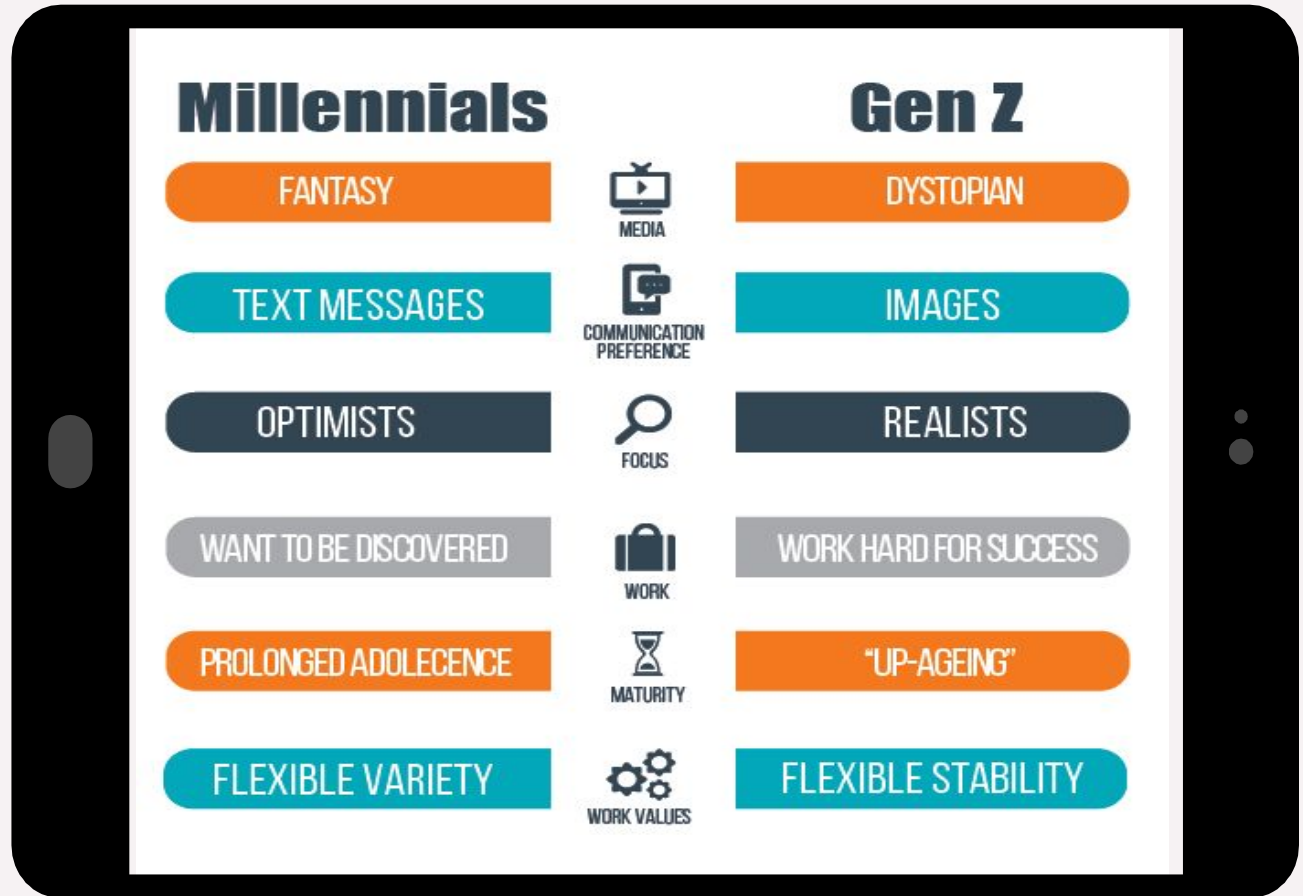

I Thought We  
Were Still  
Complaining  
About  
Millenials?

Time to  
re-think

# Values (some of them)

- group thinkers who enjoy collaborative learning
- process and skills-based learning (because content is online)
- lots of technology, therefore little tolerance for delays
- ambition in favor of more family time, travel, less personal pressure.
- everything is "up for discussion"
- Ambitious but aimless
- possess critical thinking that is different because of access and use of technology – therefore....
- they have a hard time processing and analyzing complex or "big picture."
- Focus on achievement vs. learning (takes too long and is too hard)
- Uncomfortable with ambiguity
- Highly influenced by peers
- "just tell me what to do Ms. Wendel"

## Mental Health of Gen Z

Compared with other generations, Gen Z is least likely to report very good or excellent mental health

### Gen Z

45%

### Millennials

56%

### Gen Xers

51%

### Boomers

70%

### Older adults

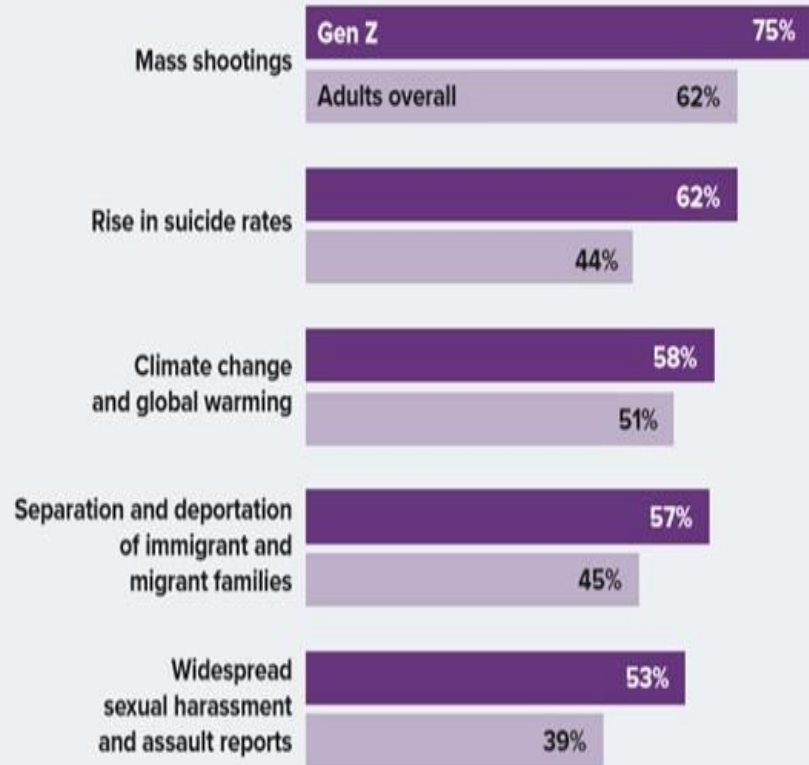

74%

Source: APA. (2018). *Stress in America: Generation Z*

## News Events Stressing Gen Z

Compared with other generations, Gen Z is more likely to report stress related to these national news topics

# generation stressed

**How often do you feel stressed?**

**Do you feel comfortable talking about your own mental health?**

Source: Non-scientific survey conducted by Global News in May 2018 with 556 participants ranging from ages 11 to 23.

@GlobalNews

# **Gen Z Terminology**

# Phigital

- All aspects of the physical world have a digital equivalent
  - Food
  - Shelter
  - Banking
  - School
  - Worship

*.....and so much more*

# Gen Z and Tech

## What makes them tick?

95% use YouTube  
50% say they can't live without it<sup>2</sup>

Spend 20+ hours a month  
engaging with video content  
on personal computers<sup>4</sup>

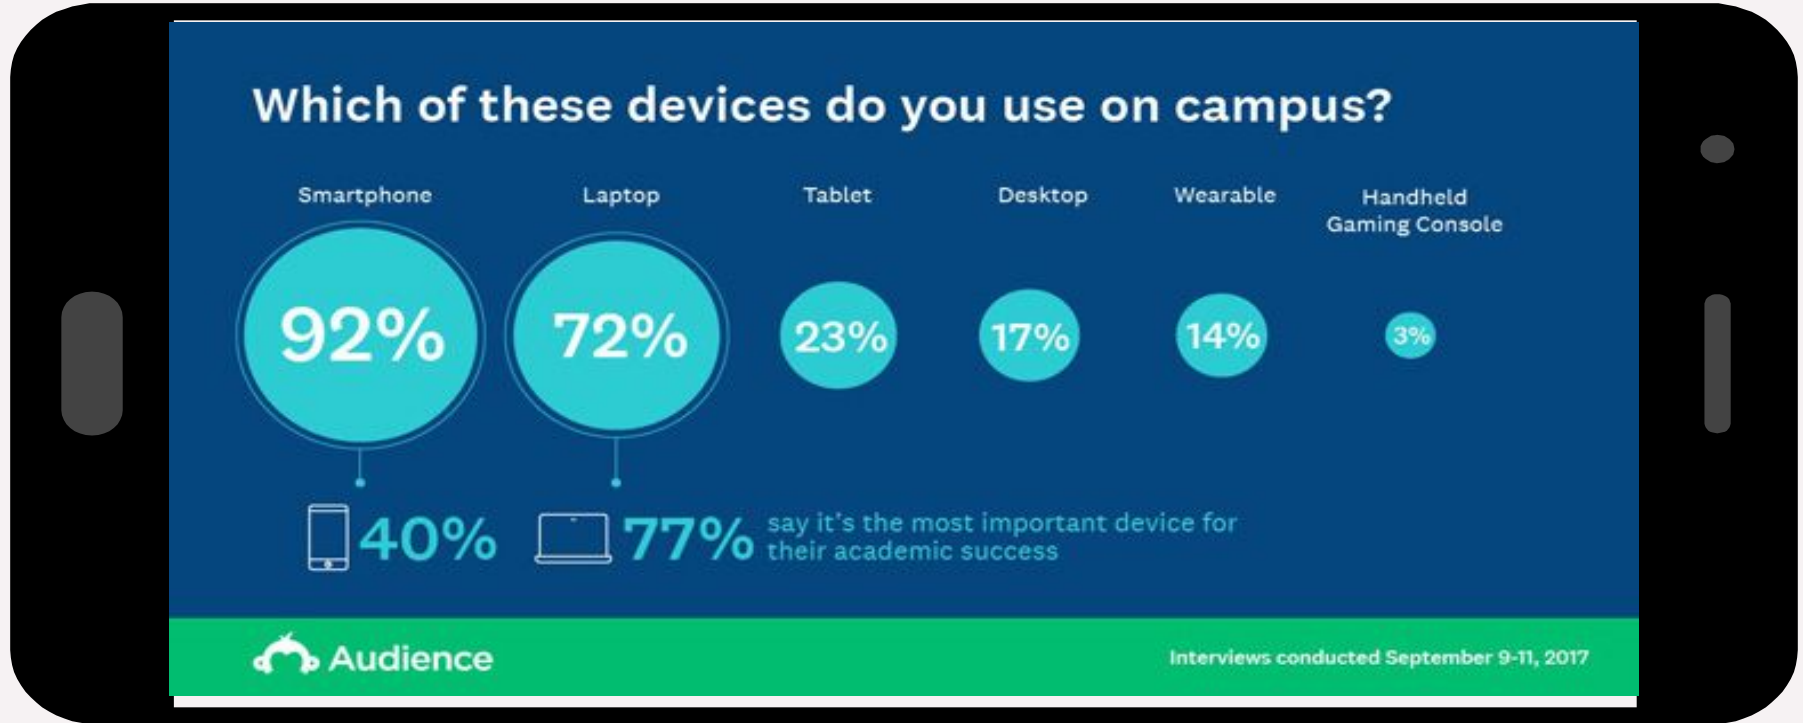

85% watch at least 1 online video  
per week to learn a new skill<sup>5</sup>

74% spend 2+ hours a day  
on social media<sup>3</sup>

# Gen Z and Tech

# Hyper-Custom

- They are used to and want autonomy
- They want to decide their own brand
- Write their own job description
- Customize their lives

# Realistic

- Post 9/11
- Recession children
- They are pragmatic about planning and preparing for the future

# FOMO!

- Intense fear of missing out!
- They want options
- They will worry they aren't moving ahead fast enough

# Weconomists

- Raised in a shared economy
- They want to partner to serve their communities
- They want to impact society

# DIY

- Youtube generation is self taught and feel that they can learn just about anything.
- fiercely independent

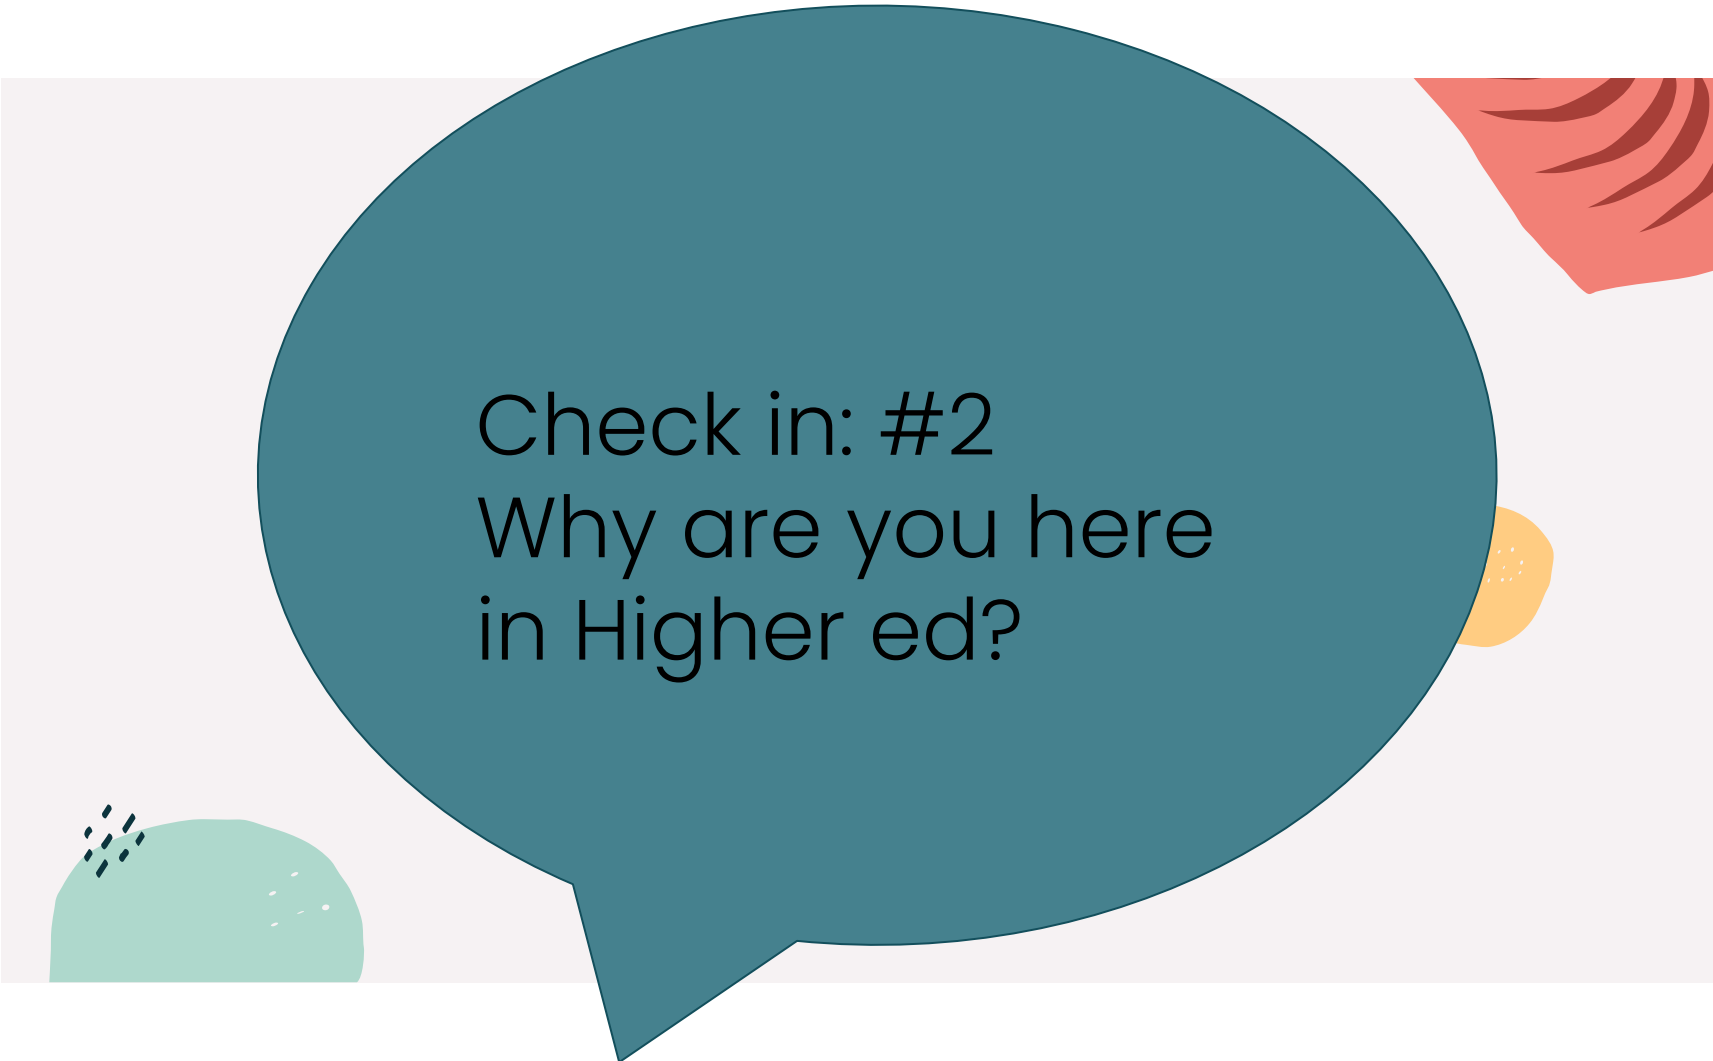

# DRIVEN

- Raised by Gen X /Millenials
- Reared during the recession
- They are competitive and ready to work

They Aren't Who You  
Think They are

A large, teal-colored speech bubble is the central focus, containing the text "Check in: #2" and "Why are you here in Higher ed?". The background is a light pink color. In the top right corner, there is a red shape with dark red curved lines. In the bottom left corner, there is a light green shape with small white dots and a dashed black line. In the middle right, there is a small yellow shape with small white dots.

Check in: #2  
Why are you here  
in Higher ed?

# How Gen Z is Shaping Higher Ed

- Gen Z-ers tend to embrace social learning environments
- Expect on-demand services that are available at any time with low barriers to access.
- More career-focused earlier on in college.
- Favor class discussion and interactive classroom environments over traditional teaching methods

# Careers & School Won't Be Enough

## 1 New Paths & New Titles

Looking for career mobility and variety. Switching new jobs is not a bad thing

## 2 Era of the Side Hustle

What else can I do for experience and for money?

## 3 Quality of Life & Flexibility

# **They are looking for Partners & Mentors**

**Respect + Guidance ≥  
Feedback**

So How do We  
Teach AND  
Reach Them?

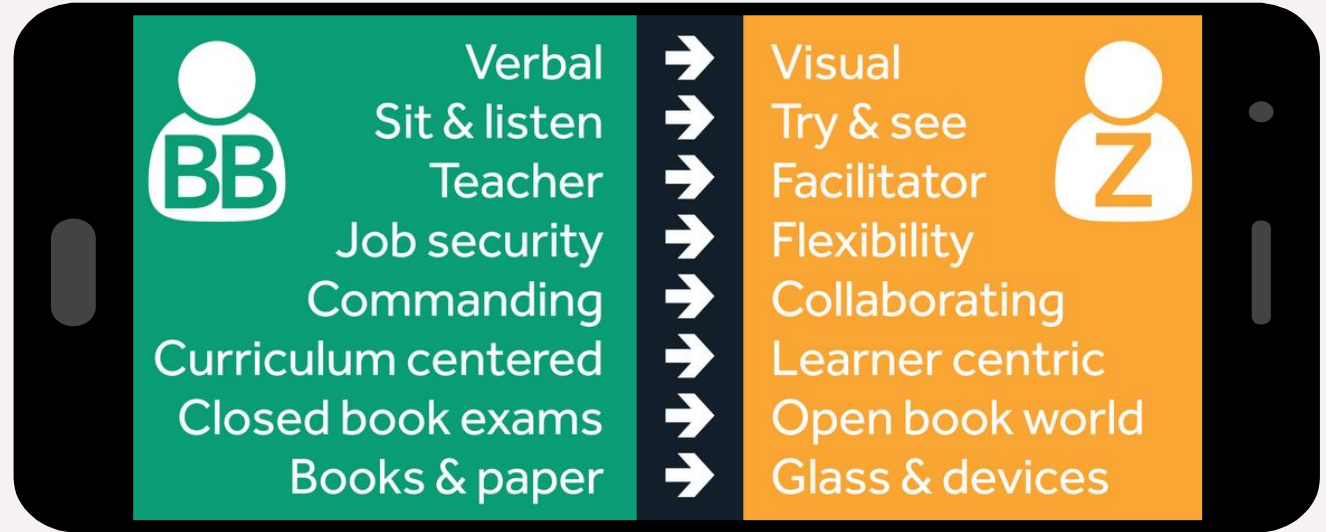

# Where are We Headed in Higher Ed?

- Big Data
- Open Educational Resources
- Immersive Learning
- Digital Course Materials
- Mobile Technology
- Learning Space Design
- Assessment Enabled Technologies

# Teaching Styles

# Gen Z in the Classroom

- Dependence on technology
- Active learners
- Learning tools integrated into curriculum
- Access to information
- On demand everything and everyone

# Are you doing these things?

- Using Simulation?
- Tech Based Projects?
- Having Students create and demonstrate content?
- Interactive Lecture?
- Activities Activities Activities?
- Contextual Experiences?

# Before They Go out

- More Pre-Clinical Opportunities
- Low Stakes Opportunities
- Repeated learning on Standards of Care
- Fewer Silos
- Closing Loops
- Community Building

# **Barriers to Good relationships and mentor experiences**

## Higher Ed has its Quirks...

- “Sage on the Stage” tradition
- Conformity
- Rigidity
- Hierarchy over Partnership
- “We know best” mentality
- Linearity

# Gatekeeping

- We invite students in only to ask them to transform themselves into us.
- Is this truly what we want?
- What is "Professionalism?"

Type in the chat  
Check in: #3

*Take a moment and write down  
what you believe “professionalism”  
is*

# How our Quirks and Communication Style impact learning

Generationally, many students want partners and mentors → we want them to follow rules

Generationally, students want interactive and immersive learning experiences that include tech → we want to use our “proven” methods

Generationally, students want to be open with you about struggles → we can perceive these struggles as weakness

Generationally, students want to advocate and fight for justice within their environments → we worry about “timing” and professionalism of this advocating or can perceive it as a challenge

## **Strategies to Reduce poor intergenerational communication**

1. Assume good intentions
2. Reflect on your own biases
3. Remind yourselves of your purpose
4. Build authentic relationships based in trust and mutual respect
5. Be upfront about your expectations and give rationales
6. Tell them why
7. It's probably not personal
8. Don't be afraid to tell them who you are outside of work
9. Model taking responsibility for mistakes

# Strategies to Reduce poor intergenerational communication

## Use statements like:

I know your intention was likely \_\_\_\_ but it may have / was perceived as \_\_\_\_

Help me understand how you are thinking about \_\_\_\_

I appreciate that you are willing to share \_\_\_\_ with me, I am invested in your future and want to support you

## Continued...

I understand you are concerned about \_\_\_\_; the reason I have chosen to approach it from this direction is \_\_\_\_.

That didn't work like I thought it would, let me try something else.

I hear you

What I hear you saying is \_\_\_\_

# Recap and Conclusions

- Gen Z students are a product of their upbringing, just as we all are
- Gen Z has many strengths that make them excellent students and future clinicians
- Our role is to facilitate the best possible outcomes by adjusting our teaching and mentorship techniques
- With a few techniques and adjustment to our approaches this next generation of clinicians will serve the community well

# Thank you
